- Completed SSC in the academic year 2012-2013 with a percentage of 83%, from Holy faith high school, Macha Bollaram, Alwal, Secunderabad.

ACADEMIC PROJECT:

Title: Event Management System Using Vb. Net

Description:

This project serves the functionality of an event manager. It is proposed to be a web application, modeled using SQL and Vb. Net. This provides most of the basic functionality required for an event.

Title: Field Monitoring and Automation using IOT in Agriculture

Description:

An automated irrigation system for efficient water management has been proposed. Soil Parameters like soil moisture, pH, Humidity are measured and the Pressure sensor and the sensed values are displayed in LCD. The GSM module has been used to establish a communication link between the farmer and the field. The current field status will be intimated to the farmer through SMS and also updated in the webpage. The farmer can access the server about the field condition anytime, anywhere thereby reducing the man power and time.

SOFTWARE SKILLS

- | | | |
|-----------------------|---|-----------------------|
| • Languages | : | Java, SQL, VB.Net. |
| • Scripting Languages | : | JavaScript. |
